Front-End Developer

I am Nicole Brooks, a Front-End Web Developer based in San Diego, California, with a passion for creating responsive and user-friendly web applications. Proficient in React, I excel at transforming complex concepts into seamless, functional user experiences. I am enthusiastic about exploring new frameworks and continuously experimenting with emerging technologies to enhance my development skills. My commitment to professional growth has led me to earn industry recognized certifications, including CompTIA A+, AWS Certified Cloud Practitioner, and Google IT Support Professional. This combination of front-end development expertise and IT certifications enables me to develop scalable, secure applications with a strong emphasis on design and usability.

WORK EXPERIENCE

iCompaas • Santa Clara, CA • 11/2020 – 08/2024

Front-End Developer

- Designed and implemented new features for the iCompaas web application, enhancing functionality and user engagement.
- Styled and developed responsive components using CSS, Ant Design, and Material-UI, ensuring consistent design and seamless user experiences across devices.
- Created interactive data visualizations using amCharts, enabling users to analyze complex data sets effectively and improving overall application usability.
- Diagnosed and resolved bugs, optimizing application performance and reliability.
- Utilized modern React features, including Hooks and advanced techniques like useMemo and useCallback, along with Redux for efficient state management and enhanced performance.
- Integrated REST APIs for scalable and flexible data interactions between front-end and backend systems.
- Mentored interns by reviewing code, troubleshooting issues, and assigning tasks aligned with their strengths and development goals.

Victorise • San Diego, CA • 07/2020 – 09/2020

Front-End Developer

- Collaborated with the development team as an intern, contributing to the creation and enhancement of web applications using React Native.
- Actively engaged in learning and applying best practices in React Native development, acquiring new skills, and expanding technical knowledge.
- Supported the team in troubleshooting and debugging, ensuring the smooth functioning of web applications and resolving issues promptly.
- Embraced feedback and implemented suggested improvements, actively contributing to the continuous improvement of web applications and development processes.

EDUCATION

Associates in General Studies

Quinsigamond Community College • Worcester Massachusetts • 09/2009 – 05/2011

Certificate in Full Stack Web Development in Software Engineering

LEARN Academy • San Diego, CA

CERTIFICATIONS

CompTIA A+ Certification • 02/2025 – 02/2025

CompTIA

Google IT Support Professional Certificate • 01/2025 – 01/2025

Google

AWS Certified Cloud Practitioner • 10/2024 – 10/2024

Amazon Web Services

SKILLS

Front-End Development: CSS3, HTML5, JavaScript (ES6+), Material UI, React.js, Redux, Styled Components, Tailwind CSS

State Management & API Integration: Context API, Redux Toolkit, RESTful APIs

Performance and Optimization: cross-browser compatibility, Lazy Loading, responsive design

Testing & Debugging: Chrome DevTools, Cypress, ESLint, Jest, Prettier, React Testing Library

Cloud & DevOps : AWS (EC2, CI/CD (GitHub Actions, CloudFront), Docker, Netlify, S3, Vercel)

Version Control & Deployment : Bitbucket, Git, GitHub, GitLab

Other Tools & Libraries : Agile methodologies, Babel, Figma, Jira, Trello, Vite, Webpack

Soft Skills: Adaptability, Attention to Detail, Emotional Intelligence, Problem-Solving, Team Player
